

# Auditing Procedures Report

Issued under P.A. 2 of 1968, as amended.

Local Government Type <input type="checkbox"/> City <input type="checkbox"/> Township <input type="checkbox"/> Village <input type="checkbox"/> Other				Local Government Name		County	
Audit Date		Opinion Date		Date Accountant Report Submitted to State:			

We have audited the financial statements of this local unit of government and rendered an opinion on financial statements prepared in accordance with the Statements of the Governmental Accounting Standards Board (GASB) and the *Uniform Reporting Format for Financial Statements for Counties and Local Units of Government in Michigan* by the Michigan Department of Treasury.

We affirm that:

1. We have complied with the *Bulletin for the Audits of Local Units of Government in Michigan* as revised.
2. We are certified public accountants registered to practice in Michigan.

We further affirm the following. "Yes" responses have been disclosed in the financial statements, including the notes, or in the report of comments and recommendations

You must check the applicable box for each item below.

- ☐ Yes ☐ No 1. Certain component units/funds/agencies of the local unit are excluded from the financial statements.
- ☐ Yes ☐ No 2. There are accumulated deficits in one or more of this unit's unreserved fund balances/retained earnings (P.A. 275 of 1980).
- ☐ Yes ☐ No 3. There are instances of non-compliance with the Uniform Accounting and Budgeting Act (P.A. 2 of 1968, as amended).
- ☐ Yes ☐ No 4. The local unit has violated the conditions of either an order issued under the Municipal Finance Act or its requirements, or an order issued under the Emergency Municipal Loan Act.
- ☐ Yes ☐ No 5. The local unit holds deposits/investments which do not comply with statutory requirements. (P.A. 20 of 1943, as amended [MCL 129.91], or P.A. 55 of 1982, as amended [MCL 38.1132]).
- ☐ Yes ☐ No 6. The local unit has been delinquent in distributing tax revenues that were collected for another taxing unit.
- ☐ Yes ☐ No 7. The local unit has violated the Constitutional requirement (Article 9, Section 24) to fund current year earned pension benefits (normal costs) in the current year. If the plan is more than 100% funded and the overfunding credits are more than the normal cost requirement, no contributions are due (paid during the year).
- ☐ Yes ☐ No 8. The local unit uses credit cards and has not adopted an applicable policy as required by P.A. 266 of 1995 (MCL 129.241).
- ☐ Yes ☐ No 9. The local unit has not adopted an investment policy as required by P.A. 196 of 1997 (MCL 129.95).

## INDEPENDENT AUDITORS' REPORT

To the Village Council  
Village of Nashville  
Barry County, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Nashville, Michigan, as of and for the year ended February 28, 2005, which collectively comprise the Village's financial statements as listed in the table of contents. These financial statements are the responsibility of the Village of Nashville, Michigan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Nashville, Michigan, as of February 28, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in the notes to the financial statements, the Village has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as of March 1, 2004.

In accordance with Government Auditing Standards, we have also issued our report dated May 5, 2005, on our consideration of the Village of Nashville, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The management discussion and analysis and required supplementary information list in the table of contents are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Village of Nashville's basic financial statements. The additional supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Village of Nashville, Michigan. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

Hastings, Michigan  
May 5, 2005

*Walker, Fluke & Sheldon, PLC*

## **Village of Nashville Management Discussion and Analysis**

As the Village Council of the Village of Nashville, we offer readers of the Village's financial statements this narrative overview and analysis of the financial activities of Village of Nashville for the fiscal year ended February 28, 2005. This being the initial year of adoption, comparative information is not presented. The analysis focuses on significant financial position, budget changes and variances from the budget, and specific issues related to funds and the economic factors affecting the Village. We encourage readers to consider this information in conjunction with the letter or transmittal, which begins on page 1, and the financial statements, which begin on page 7.

### **Financial Highlights**

- The assets of Village of Nashville exceeded its liabilities at the close of the most recent fiscal year by \$5,369,558 (net assets). Of this amount, \$1,009,953 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets decreased by \$86,999.
- As of the close of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$734,625, a decrease of \$29,454 in comparison with the prior year.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$175,802, or 33.59% of total general fund expenditures. This demonstrates the Village's fiscal discipline and places the Village in a strong financial position to meet unexpected emergencies, uncertainties at the State level or the general slowdown of the economy.

### **Overview of the Financial Statements**

The Village of Nashville's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Village's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the Village's financial position is improving or deteriorating.

The statement of activities presents information showing how the Village's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., state shared revenue).

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village include general government, public safety, highways and streets, recreation and cultural and health and welfare.

The government-wide financial statements can be found on pages 7-8 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Village of Nashville, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into three categories: government funds, proprietary funds and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at

the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village of Nashville maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Major Streets and Local Streets, which are considered to be major funds.

The basic governmental fund financial statements can be found on pages 9-11 of this report.

**Proprietary funds.** The Village maintains two types of proprietary funds. Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The Village uses enterprise funds to account for the Water Fund and Sewer Fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund, both of which are considered to be major funds of the Village. The proprietary fund financial statements can be found on pages 12-14 of this report.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Village's own programs. The fiduciary fund financial statement can be found on page 15 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 16-29 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The Village adopts an annual budget for its general fund, major street fund and local street fund. Within the required supplementary information, a budget comparison statement has been provided for these funds to demonstrate compliance with the budget.

Required supplementary information can be found on pages 30-33 of this report.

Individual fund statements and schedules are presented immediately following the required supplementary information on budgets on pages 34-44.

### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of Village of Nashville, assets exceeded liabilities by \$5,369,558 at the close of the most recent fiscal year.

The \$1,009,953 portion of the Village's net assets (18.81 percent) reflects its unrestricted net assets, which may be used to meet the government's ongoing obligations to citizens and creditors. An additional portion of the Village's net assets (3.31 percent) reflects restricted net assets (\$177,834), which are resources that are subject to external restrictions on how they may be used. The remaining portion of the Village's net assets (77.88 percent) reflects its investment in capital assets (\$4,181,771) (e.g. land, buildings, equipment and furniture and fixtures). The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Change in Net Assets	<u>\$ 15,238</u>	<u>\$ (102,237)</u>	<u>\$ (86,999)</u>

At the end of the current fiscal year, the Village is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental activities.

**Governmental activities.** Governmental activities increased the Village's net assets by \$15,238, mainly due to the fact that revenues were up slightly and controlled responsible spending by the Village Council.

For the most part, expenses were comparable with prior year. Public Works gas and oil increased due to rising gas prices and more vehicles in service. Public Works contract labor increased due to more sidewalk improvements. The Ambulance Board expense increased due to an increase in the new contract.

**Business-Type activities.** Business-type activities decreased the Village's net assets by \$102,237 mainly due to the fact that water and sewer rates are not high enough to support the corresponding expenses of those funds.

### **Financial Analysis of the Village's Funds**

As noted earlier, the Village used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a Village's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$734,625, a decrease of \$29,454 in comparison with the prior year.

The general fund is the chief operating fund of the Village. At the end of the current fiscal year, unreserved fund balance of the general fund was \$175,802 and the total fund balance was \$479,026. Unreserved fund balance represents 33.59% of the total general fund expenditures.

The fund balance of the Village's General Fund decreased by \$27,416 during the current fiscal year, mainly due to decreases in state shared revenue and increases in public safety, public works and locally administered street expenses.

**Proprietary funds.** The Village's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

As of the end of the current fiscal year, the Village's water fund reported unrestricted net assets of \$237,058. The Water Fund had a decline in net assets of \$42,434. The Village's Sewer Fund reported unrestricted net assets of \$46,544 at the end of the year. The Sewer Fund had a decline in net assets of \$59,803. The Village recognizes the declines in the water and sewer funds and are in the process of bringing water and sewer rates to where they need to be.

### **General Fund Budgetary Highlights**

The amended revenue budget was down \$6,321 from the original budget due to amendments for decreases in state shared revenue and increases in equipment rental. The expenditures increased \$48,575 between the original budget and the final budget. The majority of the increase in appropriations can be summarized with the following increases:

- \$14,546 decrease to general government
- \$9,243 increase to public safety
- \$68,445 increase to public works
- \$12,000 decrease to health and welfare

The majority of budget amendments were to account for capital outlay purchases and new contracts. The majority of the increase was due to the fact the Village approved to buy new equipment in public safety and public works.

During the year, however, revenues exceeded budgetary estimates, and expenditures were less than budgetary estimates. Operating transfers to other funds resulted in a need to draw upon fund balance in the general fund.

### **Capital Assets**

The Village's investment in capital assets for its governmental activities as of February 28, 2005, amounts to \$552,019 (net of accumulated depreciation). This investment in capital assets includes: land, buildings, improvements, equipment and furniture and fixtures.

Major capital asset events during the current fiscal year included improvements made in infrastructure, street repairs and purchasing equipment. Details of the Village's capital assets are continued in the notes to the financial statements on page 24-26.

### **Long-Term Debt**

At the end of the current fiscal year, the Village had total bonded debt outstanding of \$2,277,000 and general obligation debt of \$7,448. The Village debt represents bonds secured by specified revenue sources and compensated absences, respectively.

#### **The Village's Outstanding Debt General Obligation and Revenue Bonds**

	Governmental-Type Activities		Business-Type Activities		Total	
	2005	2004	2005	2004	2005	2004
Primary Government:						
Revenue Bonds	\$ -	\$ -	\$ 2,277,000	\$ 2,378,000	\$ 2,277,000	\$ 2,378,000
Compensated Absences	7,448	5,811	-	-	7,448	5,811
Total	<u>\$ 7,448</u>	<u>\$ 5,811</u>	<u>\$ 2,277,000</u>	<u>\$ 2,378,000</u>	<u>\$ 2,284,448</u>	<u>\$ 2,383,811</u>

The Village's debt decreased by \$99,363 (4%) during the current fiscal year. The net reduction was attributable to making debt service payments as they came due.

Additional information on the Village long-term debt can be found on pages 27 of the notes to the financial statements.

### **Economic Factors and Next Year's Budgets and Rates**

Budget assumptions: The unemployment rate is still high in the State of Michigan and the State's shortfall in the budget means further reductions in state-shared revenues. State shared revenues are expected to decrease in the 2005-2006 fiscal year. The Village budgeted for a decrease in state-shared revenue. The Village's millage rate will remain the same. The taxable value will increase, thus bringing in more tax revenue. The Village has planned for automatic cost of living increases in water and sewer rates. There are also plans for street projects on Washington and Lenz with projected costs of \$120,000. These factors were considered in preparing the Village's budget for the 2005-2006 fiscal year.

### **Requests for Information**

This financial report is designed to provide a general overview of Village of Nashville's finances for all those with an interest in the village's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the (Supervisor/Treasurer/Clerk), Village of Nashville, 203 N Main Street, Nashville, MI 49073. 517-852-9544

**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the Village of Nashville conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Village of Nashville:

In June 1999, the GASB issued Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Certain of the significant changes in the Statement include the following:

- A Management's Discussion and Analysis (MD&A) section providing an analysis of the Township's overall financial position and results of operations
- Financial statements prepared using full accrual accounting for all of the Township's activities

These and other changes are reflected in the accompanying financial statements (including notes to the financial statements).

**REPORTING ENTITY**

The Village of Nashville was organized in 1869 and covers an area of 2.1 square miles. The Village operates under an elected council of seven members and provides services to its almost 1,700 residents in many areas including police and fire protection and highway and street maintenance. Education services are provided to citizens through several local school districts that are separate governmental entities. Fire and ambulance service is provided by Castleton Township, Maple Grove Township and the Village of Nashville Fire Board and Ambulance Board. The local units are assessed for their respective share of the Boards' expenditures. The accompanying basic financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. Based on the significance of any operational or financial relationships with the Village, there are no component units to be included in these financial statements.

**JOINT VENTURES**

**Ambulance Department**

The Village of Nashville has entered into a joint venture agreement with Castleton Township and Maple Grove Township for the ownership, operation and maintenance of an ambulance department, equipment and housing. Each municipality appoints two members from their legislative bodies to act as the ambulance board. Said board has the general supervision of equipment, finances and policies of the department. Equipment and housing is the property of the two townships. Funds for equipment and housing, when not available from other means, are provided by the two townships as follows: Castleton - two-thirds; Maple Grove - one-third. Operating expenses, when not available from other means are shared equally by the three municipalities. A true and accurate account of the expenditures is kept by the ambulance board and reported to the various municipalities from time to time, at least annually.

The following financial information of the joint venture is as of and for the year ending March 31, 2004:

Total Assets	\$ 133,347	Total Revenues	\$ 132,549
Total Liabilities	\$ 973	Total Expenditures	\$ 141,585
Total Net Assets	\$ 133,086	Increase (Decrease) in Net Assets	\$ (9,036)
Total Joint Venture Outstanding Debt	\$ -	Village of Nashville's Share of Assets	\$ 5,128

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**JOINT VENTURES (Continued)**

**Fire Department**

The Village of Nashville has entered into a joint venture agreement with Castleton Township and Maple Grove Township for the operation and maintenance of certain fire fighting equipment and apparatus. Each municipality appoints two members from their legislative bodies to act as the fire board. The fire board has the authority to exercise policy making powers over the fire fighting equipment and also exercise control and supervision over the financial affairs of the fire department. The equipment is manned and operated by the personnel of the Nashville Fire Department, under the general supervision of the fire board. The total cost of operation of the fire department is shared equally by the three municipalities. A true and accurate account of the expenditures is kept by the fire board and reported to the various municipalities from time to time, at least annually.

The following financial information of the joint venture is as of and for the year ending March 31, 2004:

Total Assets	\$ 226,372	Total Revenues	\$ 64,200
Total Liabilities	\$ 158	Total Expenditures	\$ 82,064
Total Net Assets	\$ 226,214	Increase (Decrease) in Net Assets	\$ (17,864)
Total Joint Venture Outstanding Debt	\$ -	Village of Nashville's Share of Assets	\$ 10,800

**Transfer and Recycling**

The Village of Nashville has entered into a joint venture with Castleton Township and Maple Grove Township for the operation and maintenance of a transfer and recycling facility. Each municipality appoints two representatives from their legislative bodies to act as the combined facility board. The combined board has the authority to set policies for its own operation, and also has the authority to regulate, control, set fees and otherwise govern the facility. Cost of construction and/or improvements to property are shared two-thirds by Castleton Township and one-third by Maple Grove Township. Operation costs are shared equally by each unit of government if not covered by fees charged. Any surplus of fees charged remains with the combined facility board to be used for operation, improvements or expansion. This joint venture is perpetual until terminated by joint action of all units or by an individual unit not less than one year after its notice thereof. Any unit terminating their part of the arrangement forfeits their share of investments.

The following financial information of the joint venture is as of and for the year ending March 31, 2004:

Total Assets	\$ 8,085	Total Revenues	\$ 45,600
Total Liabilities	\$ 85	Total Expenditures	\$ 38,648
Total Net Assets	\$ 8,000	Increase (Decrease) in Net Assets	\$ 6,952
Total Joint Venture Outstanding Debt	\$ -	Village of Nashville's Share of Assets	\$ 2,695

**Library**

The Village of Nashville has entered into a joint venture agreement with Castleton Township and Maple Grove Township for the operation and maintenance of the Putnam District Library. The Village agrees to budget \$2,000 annually to the library with an accumulation of not greater than \$10,000 for major repairs to the library property. The Village agrees to carry adequate liability and structure insurance. A true and accurate account of the expenditures is kept by the library board and reported to the various municipalities from time to time, at least annually.

The following financial information of the joint venture is as of and for the year ending March 31, 2004:

Total Assets	\$ 355,953	Total Revenues	\$ 76,770
Total Liabilities	\$ 2,066	Total Expenditures	\$ 59,125
Total Net Assets	\$ 353,887	Increase (Decrease) in Net Assets	\$ 17,645
Total Joint Venture Outstanding Debt	\$ -	Village of Nashville's Share of Assets	\$ -

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**JOINT VENTURES (Continued)**

Complete financial statements of the individual joint ventures can be obtained from their respective offices or from the Clerk's office as follows:

Ambulance Board	Fire Board	Transfer and Recycling	Putnam Public Library
Castleton Township	Castleton Township	Castleton Township	327 N Main
915 Reed	915 Reed	915 Reed	Nashville, MI 49073
Nashville, MI 49073	Nashville, MI 49073	Nashville, MI 49073	

**GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers who purchase, use or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual; therefore, they have been recognized as revenue in the current fiscal period. All other revenues are considered to be measurable only when cash is received by the Village.

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION**

Taxes Receivable - The Village property tax is levied on each July 1<sup>st</sup> based on the taxable valuation of property located in the Village as of the preceding December 31<sup>st</sup>.

It is the Village's policy to recognize revenue from the current tax levy in the year when the proceeds of this levy are budgeted and made "available" for the financing of operations. "Available" means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period (60 days).

The 2004 State taxable valuation of the Village totaled \$19,609,274 on which ad valorem taxes levied consisted of 9.1115 mills for Village operating purposes and 3.9616 mills for Village street operations, and .7923 mills for sidewalks, raising \$180,870 for operating, \$78,639 for street operations and \$15,724 for sidewalks. The amounts recognized in the General Fund financial statements as current property tax revenue represent 2004 taxes collected and 2003 delinquent taxes collected in the current fiscal year.

The Village reports the following major governmental funds:

- The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.
- The Major Street Fund accounts for the maintenance of all major streets and trunk lines. Financing is provided by special revenues from provisions of Act 51 of 1951 as amended.
- The Local Street Fund accounts for the maintenance of all local streets. Financing is provided by special revenues from provisions of Act 51 of 1951 as amended.

The Village reports the following major proprietary funds:

- The Water Fund accounts for the operation and maintenance of the water supply system, capital additions, and retirement of revenue bonds. Financing is provided by user charges and contributions by other funds and customers.
- The Sewer Fund accounts for the operation and maintenance of the sewage disposal system, capital additions, and improvements and retirement of revenue bonds. Financing is provided by user charges and contributions by other funds and customers.

Additionally, the government reports the following fund types:

- The Trust and Agency Fund accounts for the assets held by the Township in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to the same limitations. The Village has elected not to follow private-sector standards.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION**  
(Continued)

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services and producing and delivering products in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relate to charges to customers for sales and services. The water and sewer fund also recognizes the portion of tap fees intended to recover current cost (e.g., labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

**ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY**

Bank Deposits and Investments - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes are levied on each July 1<sup>st</sup> based on the taxable valuation of property located in the Village as of the preceding December 31<sup>st</sup>. These taxes are due on August 31 with the final collection date of September 15. After that date, they are added to the county 's delinquent tax rolls.

The delinquent real property taxes of the Village are purchased by Barry County. The County intends to sell tax notes, the proceeds of which were used to pay the Village for these property taxes. These taxes have been recorded as deferred revenue in the fund financial statements for the current year since they are not available to fund expenditures of the current period.

Designated Assets - The Village has designated assets for police equipment, contingency and equipment. By designating a portion of fund balance for a specific purpose, the Village Council has established a policy that the amounts designated are to be used for a specific purpose. The Village Council can change the amounts so designated if they desire.

Restricted Assets - The Village has restricted assets for locally administered streets. By restricting a portion of the fund balance for a specific purpose, the Village has limited the use of the funds for that specific purpose only. The Village Council cannot change the amounts restricted and cannot spend the restricted funds for any other than locally administered streets and demolition. The revenue bonds of the enterprise funds require amounts to be set aside for debt service principal and interest and a bond reserve. These amounts have been classified as restricted assets.

Retained Earnings Reserve - In the Sewer and Water System funds, certain amounts of the retained earnings are reserved for bond and interest redemption. The amounts of the reserves are established by bond ordinances. Any use of the reserve balances would be a violation of the bond ordinances.

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)**

Capital Assets - Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

<u>General Assets</u>	
Buildings	40 years
Furniture	10 years
Equipment	7 years
Data Processing Equipment	5 years
<u>Infrastructure Assets</u>	
Road	8 to 30 years
Bridges	12 to 50 years
Drains, Curbs, Gutters	8 to 40 years

Compensated Absences (Vacation and Sick Leave) - Vacation pay is earned by all full time employees according to the length of their employment and is available for use in the year following its accrual. Vacation time is paid at the employee's current pay rate and must be used in the year available. Upon termination of employment, employees will be paid for all unused vacation time.

Sick leave time is earned at the rate of ten days per year by full time employees. Unused sick leave benefits can accumulate to a maximum of 90 days. In addition, employees can earn three days bonus time off by limiting sick leave taken according to a sliding scale. Sick leave accrued is to be paid to the employees at the rate of \$10 per every eight hours of unused accumulated sick leave at the time of termination of employment for any reason.

Long-Term Obligations - In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)**

Comparative Data/Reclassifications - Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operation of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentations.

**STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

Budgetary Information - Budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. This basis is consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for all required governmental fund types. The Village Boards prepares the annual budgets prior to February 28. A Public Hearing is conducted to obtain taxpayers' comments. The budget documents present information by fund, function, department and line items. The legal level of budgetary control adopted by the governing body is the department level.

**ENCUMBRANCE ACCOUNTING**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the Village of Nashville.

**EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETED FUNDS**

P.A. 621 of 1978, section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

During the year ended February 28, 2005, the Village incurred expenditures in certain budgeted funds, which were in excess of the amounts appropriated, as follows:

<u>FUND</u>	<u>BUDGET APPROPRIATION</u>	<u>ACTUAL EXPENDITURE</u>	<u>BUDGET VARIANCE</u>
General			
General Government:			
Village Clerk	\$ 32,335	\$ 33,144	\$ 809
Building and Grounds	\$ 8,605	\$ 8,785	\$ 180
Public Safety			
Planning and Zoning	\$ 4,036	\$ 5,349	\$ 1,313
Public Works			
Garage and Maintenance	\$ 89,800	\$ 99,695	\$ 9,895

**DEPOSITS AND INVESTMENTS**

Michigan Compiled Laws Section 129.91, authorizes the Village to make deposits and invest in the accounts of federally insured banks, credit unions and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**DEPOSITS AND INVESTMENTS (Continued)**

The Village has designated six banks and two federal savings banks for the deposit of the Village of Nashville funds.

The Village retirement system's investments are held in trust by the investment fiduciary, Manufacturers Life Financial. Michigan Compiled Laws, Section 38.1132, authorizes the Village retirement system to invest in a wide variety of investments including stocks, bonds, certificates of deposit, real estate, annuity contracts, obligations of a specified nature, and real or personal property. Specific limitations apply to the various investment types depending on the size of the system.

The Village's deposits and investments are in accordance with statutory authority.

At year-end, the Village's deposits and investments were reported in the basic financial statements in the following categories:

	<b><u>GOVERNMENTAL ACTIVITIES</u></b>	<b><u>BUSINESS-TYPE ACTIVITIES</u></b>	<b><u>FIDUCIARY FUNDS</u></b>	<b><u>TOTAL PRIMARY GOVERNMENT</u></b>
Cash and Cash Equivalents	\$ 604,296	\$ 258,703	\$ -	\$ 862,999
Investments	2,000	-	19,417	21,417
Restricted Assets	<u>47,508</u>	<u>130,326</u>	<u>-</u>	<u>177,834</u>
Total	<u>\$ 653,804</u>	<u>\$ 389,029</u>	<u>\$ 19,417</u>	<u>\$ 1,062,250</u>

The breakdown between deposits and investments is as follows:

	<b><u>PRIMARY GOVERNMENT</u></b>
Bank Deposits	\$ 1,042,699
(Checking and Savings Accounts, Certificates of Deposit)	
Investment in Securities	19,417
(Mutual Funds and Similar Vehicles)	
Petty Cash and Cash on Hand	<u>134</u>
Total	<u>\$ 1,062,250</u>

At February 28, 2005, the Village had deposits with a carrying amount of \$1,042,832 and a bank balance of \$1,068,569. Of the bank balance, \$249,944 is covered by federal depository insurance, \$1,818,625 is uninsured and \$0 is collateralized.

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
For the Year Ended February 28, 2005

---

**CAPITAL ASSETS**

Capital asset activity of the primary government for the current year was as follows:

	<b><u>BEGINNING BALANCE</u></b>	<b><u>INCREASES</u></b>	<b><u>DECREASES</u></b>	<b><u>ADJUST- MENTS</u></b>	<b><u>ENDING BALANCE</u></b>
<b>Governmental Activities</b>

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

**LONG-TERM DEBT**

The government issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. County contractual agreements and installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties, and will be repaid from amounts levied against those properties benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the district ) are received. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

The following is a summary of the debt outstanding of the Village of Nashville as of February 28, 2005:

	<u>INTEREST RATE</u>	<u>PRINCIPAL MATURES</u>	<u>BEGINNING BALANCE</u>	<u>ADDITION (REDUCTIONS)</u>	<u>ENDING BALANCE</u>	<u>DUE WITHIN ONE YEAR</u>
<b>Primary Government</b>						
<b>Governmental Activities</b>						
Other Liabilities						
Compensated Absences	-	-	\$ 5,811	\$ 1,637	\$ 7,448	\$ 5,981
<b>Business-Type Activities</b>						
Revenue Bonds						
Water System - 1998	4.35 - 6.85%	2014	148,000	(13,000)	135,000	14,000
Water System - 2001	2.50%	2022	925,000	(40,000)	885,000	40,000
Water System - 2001	4.75%	2041	790,000	(8,000)	782,000	8,000
Sewer System - 1998	4.60 - 7.00%	2020	<u>515,000</u>	<u>(40,000)</u>	<u>475,000</u>	<u>45,000</u>
Total Business-Type Activities			<u>\$ 2,383,811</u>	<u>\$ (99,363)</u>	<u>\$ 2,284,448</u>	<u>\$ 112,981</u>

The compensated absence liability attributable to the governmental activities will be liquidated by the Village's governmental funds. The annual requirements to pay principal and interest on long-term bonds outstanding for the primary government are as follows:

<u>Year End February 28</u>	<u>Business-Type Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2006	\$ 107,000	\$ 90,112
2007	108,000	85,091

2031-2035	142,000	83,553
2036-2040	180,000	46,360
2040-2042	<u>84,000</u>	<u>6,027</u>
Total	<u>\$ 2,277,000</u>	<u>\$ 1,272,988</u>

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**RISK MANAGEMENT**

The Village is exposed to various risks of loss related to theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village manages its risk exposure and provides certain employee benefits through a combination of risk management pools and commercial insurance.

The Village participates in the Michigan Municipal League for general and automobile liability, motor vehicle physical damage, property damage, and workers compensation coverages. The Michigan Municipal Liability and Property Pool were established pursuant to laws of the State of Michigan which authorize local units of government to jointly exercise any power, privilege or authority which each might exercise separately. The purpose of the pool is to jointly exercise powers common to each participating member to establish and administer a risk management program; to prevent or lessen the incidence and severity of casualty losses occurring in the operation of its members; and to defend and protect any member of the authority against liability or loss.

The Michigan Municipal Liability and Property Pool, while it operates under the Michigan Legislation of Public Act 138, does not operate as a risk pool due to a total transfer of risk to reinsurance companies backing the Michigan Municipal Liability and Property Pool. Due to this reinsurance purchase, there is no pooling of risk between members.

The Michigan Municipal Liability and Property Pool chose to adopt the forms and endorsements of conventional insurance protection and to reinsure these coverages 100%, rather than utilize a risk pool of member funds to pay individual and collective losses up to a given retention, and then have reinsurance above that retention amount.

The individual members are responsible for their self-retention amounts (deductibles) that vary from member to member.

The Village also provides employee benefits through the Michigan Municipal League with programs underwritten by commercial insurance carriers.

At February 28, 2005, there were no claims, which exceeded insurance coverage. The Village had no significant reduction in insurance coverage from previous years.

**DEFERRED COMPENSATION PLAN**

On February 28, 1998, the Village adopted a deferred compensation plan created in accordance with the Internal Revenue Code, Section 457. The plan permits all full-time employees to participate in the plan. The Village contributes 5% to 6%, depending on job description, of gross earnings for all eligible employees and the employee can contribute 5% to 6% of gross earnings, until the employee's termination, retirement, death or unforeseeable emergency.

Amendments to the laws governing Section 457 deferred compensation plans substantially became effective January 1, 1997. The Village is serving as trustee, for the exclusive benefit of the plan participants and their beneficiaries. The assets will not be diverted to any other purpose. The Village's beneficial ownership of plan assets will be held for the further exclusive benefit of the plan for the exclusive benefit of participants and beneficiaries.

It is the opinion of the Village's legal counsel that the Village, as trustee, has no liability for plan losses but does have the duty of due care that would be required of an ordinary prudent investor.

The plan is administered by the Village's agent, Actuarial Benefit Administrators and funded through Scudder Investments.

**VILLAGE OF NASHVILLE**  
**NOTES TO FINANCIAL STATEMENTS**  
**For the Year Ended February 28, 2005**

---

**DEFERRED COMPENSATION PLAN (Continued)**

The plan's assets are included in the Village's Statement of Fiduciary Nets Assets in compliance with GASB Statement No. 32, "Financial Reporting of Deferred Compensation Plans Adopted Under the Provisions of the Internal Revenue Code Section List". A summary of the activity in the plan for the year ended February 28, 2005, is as follows:

Balance - March 1, 2004	\$ 12,065
Contributions	7,212
Net Investment Gain	<u>140</u>
Balance - February 28, 2005	<u>\$ 19,417</u>

**RESTATEMENT OF PRIOR YEAR NET ASSETS**

During fiscal year 2004, the Village was recording amortization of contributed capital in the sewer and water funds in accordance with generally accepted accounting principles.

As a result of the GASB 34 conversion, the contributed capital and the amortization of contributed capital are included as adjustments to beginning net assets for the government wide statements. As governmental fund types do not record contributed capital, there was no effect on the previously stated fund balance of the governmental funds.

Accordingly, the Sewer and Water Fund's beginning net assets were adjusted as follows:

	<u>Business-Type</u>		
	<u>Sewer Fund</u>	<u>Water Fund</u>	<u>Total</u>
Beginning Net Assets, as previously reported	\$ 2,649,518	\$ 1,488,034	\$ 4,137,552
Amortization of Contributed Capital	(85,646)	(30,989)	(116,635)
Capital Contributions	<u>-</u>	<u>125,000</u>	<u>125,000</u>
Total prior period adjustment	<u>(85,646)</u>	<u>94,011</u>	<u>8,365</u>
Beginning Net Assets, as of March 1, 2004	<u>\$ 2,563,872</u>	<u>\$ 1,582,045</u>	<u>\$ 4,145,917</u>

**VILLAGE OF NASHVILLE**

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND  
ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Village Council  
Village of Nashville  
Barry County, Michigan

We have audited the financial statements of the Village of Nashville as of and for the year ended February 28, 2005, and have issued our report thereon dated May 5, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Village of Nashville's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Village of Nashville's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of the Village Council and management. However, this report is a matter of public record and its distribution is not limited.
